# Xcelerate

A 12-Month In-Person Program to help you accelerate your growth by developing your people. It's specifically designed to transform the way that teams operate. The strategies and tools we cover are particularly powerful for organizations who can quickly implement and apply the learning.

## About

Xcelerate is designed for organizations who:

- Have no time to work “on” the business
- Want a more robust strategic plan for future growth
- Desire greater alignment among team members
- Find themselves “putting out fires” too often
- Need more leaders so they can expand
- Have no system in place to develop employees
- Struggle to get the best from some employees
- Want to intentionally shape organizational culture
